

**About the course:** The course is designed to equip the participants with skills to trace information from libraries and the web, write dissertations and research papers without grammatical errors, acquire the basic concepts of academic communication and academic publishing trends, learn about citation styles manuals, open online courses, intellectual property rights (IPR) related protection systems, and data analysis and interpretation.

**Relevance:** Research in education is of considerable importance. A major task of scientific and historical study is to provide in-depth information about a topic; apart from that, it will also advance scientific knowledge. The publications serve as the instructional and learning tools for prospective learners. By learning more about academic communication and publishing, participants can comprehend how important scientific research is to society and appreciate the significance of research in education.

**Expected outcomes:**

- Develop writing skills and confidence to write for journals and learn the best practices for submitting a paper and peer review.
- Understand the editorial processes
- Learn about copyright Law in the digital age and plagiarism
- Identify collaboration tools, research indicators, and scholar networks
- Get an overview of statistical tools used for research data analysis

**Who can join?**

Faculty, research scholars, and students of CMS College (Autonomous), Kottayam, and St. Stephen's College Uzhavoor.

With regards,

**Dr. Varghese C. Joshua**

Principal

CMS College (Autonomous), Kottayam

**Prof. Lally K. Cyriac**

Principal

St. Stephen's College

Uzhavoor

Duration: 36 Hours

Credits: 2

Lore and Ed Research Associates is a private limited company that offer training and professional support to enrich research in India. It also extend support for publication. It aspires to empower researchers by facilitating their acquisition of scientific expertise, developing their research skills, and encouraging them to perform high-quality research to meet global standards.

## COURSE SYLLABUS

### Module 1: Use of Library and Internet

The objective is to equip the participants with skills to trace information from libraries and the web efficiently. The areas covered are academic information sources (print & online) and national and international information systems.

### Module 2: Technical Writing and Communications Skills

The objective is to equip the participants with skills to write dissertations, research papers, etc. and to articulate ideas in English. The areas covered are writing for academic purposes, research reporting and academic publishing.

### Module 3: Academic Publishing Trends

The objective is to teach the basic concepts of academic communication and academic publishing trends. The areas covered are academic plagiarism, publication ethics, and citation metrics.

### Module 4: Reference Management

The objective is to teach about citation style manuals and referencing systems.

The areas covered are referencing systems and styles, and reference management software.

### Module 5: MOOCs, Collaboration Tools and Scholar Networks

The objective is to enlighten students with information regarding MOOCs, tools for academic collaboration and scholar networks. The areas covered are Massive Open Online Courses, research indicators, collaboration tools, and scholar networks.

### Module 6: Intellectual Property and its Management

The objective is to equip participants with knowledge of intellectual property rights (IPR) related protection systems, their significance and use of IPR as a tool for wealth and value creation in a knowledge-based economy. The core area in discussion is the copyright law in the digital age.

### Module 7: Data Analysis and Interpretation

The objective is to provide an overview of statistical tools used for research data analysis. The core area is the statistical packages used for data analysis.

**About the course:** This course has total 6 units focusing on basics of philosophy of science and ethics, research integrity, and publication ethics. Hands-on-sessions are designed to identify research misconduct and predatory publications. Indexing and citation databases, Open Access publications research metrics (citations, h-index, Impact Factor etc.) and plagiarism tools will be introduced in this course.

**Course Objective:** To create awareness about the publication ethics and publication misconducts.

### Who can join?

M.Phil., Ph.D. students and interested faculty members can join this course.
